

flagLIGHT

**ROCKET
SEO**

You are the brightest!

Half the year it's **dark and dusky at rush hour.**
But this is **your best „airtime“!**

Upgrade your flags now with effective lighting.
The WEBA FlagLight is the ideal solution for this.

Stay visible when others are in the dark.

Illuminated flags! The WEBA FlagLight is
the energy-efficient standard for every pole.

THE LIGHTING FOR FLAGPOLES

Your visibility counts!

- + energy-saving high-performance LEDs
- + Can be easily and quickly retrofitted to almost all masts
- + Maintenance-free with extremely low operating costs
- + Optimally calculated light distribution, no scattering
- + Flags 360° visible - regardless of wind direction
- + Remains clean, as always mounted above the floor
- + easy to maintain! Remains free of grass and plants
- + safe from vandalism due to bulletproof glass
