The powerful battery is simply attached to the mast.

Good light for every table:

the battery light for parasols

With LUME-1® smart, every parasol becomes a large-scale and pleasant table lighting. Your kitchen creations deserve good lighting, the service can work more effectively and: the guests are pleased with the incomparably pleasant atmosphere.

Let your ideas run free.

LUME-1® smart fits almost any standard parasol. With the powerful battery, you are on the safe side every evening. Clever restaurateurs use it to conjure up cosiness and encourage your guests to spend time consuming. The remote control allows you to control brightness and colour selection in many levels by radio.
